

The main section of this track follows Whitewater Creek and provides a link between the City Centre and the Sports Centre. The creek used to be choked with willows and blackberries, but has now been fully re-vegetated with natives with the help of school children and volunteers. Several seats and grassy banks provide opportunities to rest and enjoy the bird-filled bushland. A new section of track has now been opened as part of the Kingston Bypass project between Summerleas and Spring Farm Road.

 1 hour return

 3.6 km return

 Limited parking at each end of track

 Gravel and concrete surface, wide, mostly level

 Whitewater Crescent underpass has limited visibility

Mount Pleasant Track

This separate track gives access to the rolling hills and horse paddocks above the Sports Centre with sweeping views down to Kingston Beach and across Tinderbox Hills.

Note: Horses are allowed on this track as the surface is grass
