**LEAVE OF ABSENCE**

There were no leave of absences.

**DECLARATIONS OF INTEREST**

There were no declarations of interest.

**CONFIRMATION OF MINUTES**

MOVED: Bill Brundle  
SECONDED: Richard Langman

That the Minutes of the Committee meeting held on Wednesday 26 October 2016, as circulated be confirmed.

Carried

## **BUSINESS ARISING FROM PREVIOUS MINUTES**

### **Media and Communications**

Approval has been granted from the Department of State Growth (DSG) for one of Council's VMS trailers to be deployed along the Channel Highway, Electrona, Southern Outlet south of The Lea and Huon Highway north of Leslie Road, displaying the message 'Don't Risk a Life, Don't Drink and Drive' over the next month. The 'Be Alert' signage is displaying 'Don't Drink and Drive' and appropriate messaging is being posted on social media.

For the information of Committee members, the Communications Officer will be holding a Communications Strategy Workshop at the beginning of the year, where the focus of the Committee and Terms of Reference will be discussed.

It was agreed that a VMS trailer will be deployed in Adventure Bay over the holiday period alerting visitors and residents to be alert to pedestrian activity and another one be deployed near the ferry terminal on the Bruny side alerting visitors of road safety issues. Neil Broomfield suggested a message in Chinese if there is the capacity to do so.

The Executive Assistant will investigate the possibility of the Bobbie the Bear brochure being made into a sign for placement on the Bruny side of the ferry terminal.

Advertising signage on the Southern Outlet was discussed and it was agreed that correspondence be sent to the DSG requesting guidelines, the legality of the signs and if enforcement measures are in place.

The Chairperson reported that Council endorsed the Committee's suggestion to lobby car rental companies through the DSG and RACT for 'Bobbie the Bear' brochures to be displayed at their premises or provided to customers.

Members discussed the possibility of holding a simulated crash demonstration like one held some years ago involving emergency services and CRSP. The Executive Assistant to investigate with the Road Safety Advisory Council (RSAC).

### **Traffic Data Channel Highway**

The attached data of the Channel Highway provided by the Roads & Stormwater Engineer was discussed. Neil Broomfield questioned the amount of accidents caused by defective vehicles and felt that annual inspections of older cars are needed.

It was agreed that the Executive Assistant will compile a list of issues (including the above) to discuss with RSAC when they attend a future Committee meeting.

It was suggested that representatives from DSG be invited to future meetings to speak on issues as they arise.

### **Kingborough Community and Police Liaison Group**

The Group's October meeting was cancelled due to a lack of Police presence. The next meeting is scheduled for 7 December 2016. The 17 August minutes will be distributed shortly afterwards.

## **CORRESPONDENCE**

### **Inwards**

Email from Will Oakley regarding learner drivers and unroadworthy vehicles.

The Executive Assistant to request the Mayor liaises with RACT about a representative attending all meetings.

### **Outwards**

There was no outwards correspondence.

## **GENERAL BUSINESS**

### **Focus for 2017**

It was agreed that an Action Plan is needed for 2017, a simple document of around one page.

The Executive Assistant to request from RSAC minutes of meetings and their plan for Christmas messaging. Enquiries are also to be made with Tasmania Police to invite their communications officer to a future meeting.

### **Roslyn Avenue/Beach Road Traffic Lights**

Bill Brundle reported that there have been instances of motorists making a left hand turn from the Beach Road lights into Roslyn Avenue. The Executive Assistant to liaise with the Roads & Stormwater Engineer about the possibility of a sign installed on the left hand side of Beach Road near the lights (there is already one on the right hand side).

### **Traffic Volumes Beach Road, Kingston**

Traffic has increased along Beach Road, possibly due to the Algona Road roundabout works. The Executive Assistant to liaise with the Roads & Stormwater Engineer.

### **Australia Post Road Safety Postcard**

Mike Hughes tabled a postcard regarding looking out for Posties for the information of members.

### **Monthly Meetings**

Members present felt that bi-monthly meetings would not allow an action plan to be effectively implemented. The Chairperson reported on his recent meeting with the Mayor and General Manager, who advised that meetings are officially bi-monthly, however the Committee are free to meet on alternative months without secretarial support.

It was agreed that the Mayor and General Manager be invited to the January meeting.

### Looking out for Wildlife in Snug Community

The Executive Assistant reported on a recent meeting with the Student Representative Council of Snug Primary regarding promoting careful driving in the Snug area to reduce animal injuries and deaths.

The Committee agreed to assist, with the project to be placed on the 2017 Action Plan.

### **MATTERS OF GENERAL INTEREST**

There were no matters of general interest.

### **NEXT MEETING**

The next meeting of the Committee is to be held on Wednesday 18 January 2017, starting at 9:00a.m. at the Civic Centre.

**CLOSURE:** There being no further business, the Chairperson declared the meeting closed at 10.11a.m.

**Subject:** RE: Kingborough Road Safety Committee Agenda 30 November 2016

Hi Julie,

I'm very sorry for the late notice but I am unfortunately no longer able to attend the meeting tomorrow morning. I am out of the office from midday tomorrow for the rest of the week and have some deadlines I need to meet before then.

As far as my actions are concerned, I have spoken with a teacher at Kingston High about establishing a learner driver/parent information session. This was received quite well and I will continue to pursue the opportunity. It looks as though this will need to be early in the new year.

I really don't think there will be an appetite to reintroduce safety certificates, considering a decision was made only recently to shelve these discussions. As I mentioned at the last meeting I attended, this was on our Road and Traffic Committee agenda for 12 months and a decision was made earlier this year to remove the item, to review when new developments arise. Having said this, I have attached a couple of documents that I managed to dig up from past discussions. They are a bit old but might highlight what our position is on the issue.

Again, sorry again for not being able to attend but hopefully this information will be helpful.

Cheers,  
Will.
