

Huon Highway and Summerleas Road Intersection Upgrade: Works Update

Works are progressing well. The team at VEC Shaw Joint Venture will continue to keep you informed of the progress and any changes as construction continues.

Third Stage of Works

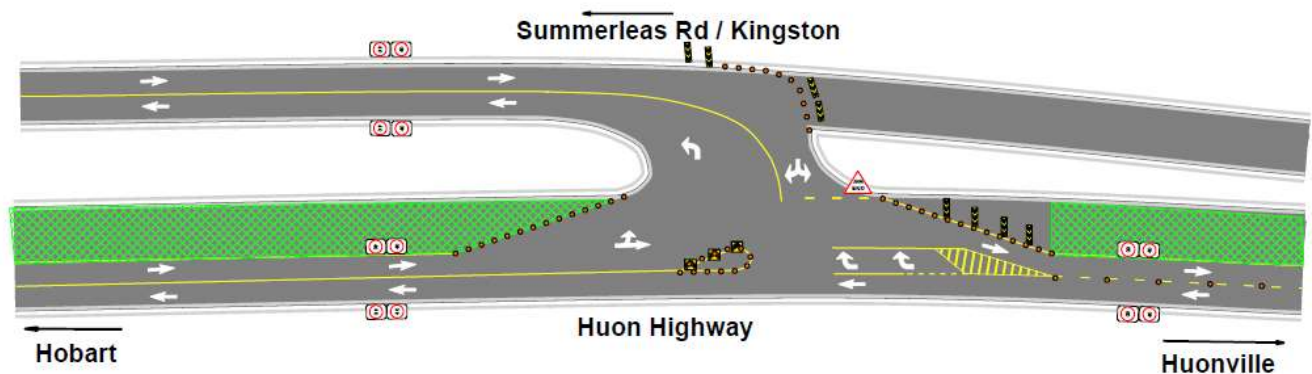

The next stage of works include completion of the ramp to the South of the existing intersection to allow bridge construction to continue. The intersection for access to Summerleas Road/Kingston will be moved onto the new ramp and will join the Huon Highway South of the bridge works. The Summerleas Road/Ferntree Junction will remain. This new intersection will be implemented during the week commencing 20 November 2017 and will be in place until bridge construction is complete, which is expected to be in early 2018. The existing junction at the Northern End of the bridge will be closed to traffic.

Figure 1: Moved Summerleas Road/Kingston Intersection

Speed restrictions and altered traffic conditions will continue throughout the construction period.
