

# Thank you for not feeding us

## Feeding ducks any food can:

- Cause ill health and aggressive behaviour.
- Stop ducks finding natural foods which contain important nutrients.
- Lead to the pollution of waterways and the park.
- Support introduced ducks who crossbreed with the Pacific black duck, threatening the extinction of our native species.

Dumping of domestic ducks and geese is illegal.

To learn about our native ducks and how to interact with them, please visit the Kingborough Council Website.
